

AGRICULTURAL RESEARCH EMPLOYMENT OPPORTUNITIES

Cargill's purpose is to be the global leader in nourishing people. As part of this purpose, Cargill Specialty Canola Oils is committed to the production of high quality Specialty Canola Oil in an identity-preserved system. Cargill Specialty Canola Oils provides a safe working environment conducive to self-development. There may be future permanent employment opportunities for qualified, motivated individuals. We are currently inviting applications for the positions of:

Agronomy Research Assistant

MB, AB, & SK TERM OR SUMMER POSITIONS AVAILABLE

Qualifications: Currently enrolled in or completed an Agriculture Diploma or Degree program. Previous research and/or farm experience would be an asset. The successful applicant should be knowledgeable of crop production, and should feel comfortable working with farm equipment in an outdoor, agriculture-oriented environment. The successful applicant will possess excellent interpersonal and communication skills, be attentive to detail, be self-motivated, and be willing to travel within Western Canada. A clean driving record would be an asset.

Description: Temporary Full-time position (May 1/08-Oct. 31/08, or May 1/08-Aug. 31/08). Under the supervision of the Research Agronomist, you will be responsible for assisting in the management and maintenance of canola research plots in western Canada. Duties include, but are not limited to, the following:

- Assisting with research plot seeding, cultivating, spraying, and harvest.
- Operation of small plot equipment, including seeder, sprayer, swather, and combine
- Some basic maintenance of small plot equipment

Salary for all positions will be competitive, based on experience

CLOSING DATE: December 1, 2007

Please specify which position(s) you are applying for, and preferred location (if any)
